## **ORMCO CORPORATION ANNOUNCES FALL AND WINTER CONTINUING EDUCATION EVENTS**

*From Chicago to Las Vegas, this September through December, the Orthodontic Industry's Foremost Thought Leaders Host Educational Sessions*

**ORANGE, Calif. (Aug. 3, 2015)**—[Ormco Corporation](#), a leading manufacturer and provider of advanced orthodontic technology and services, is hosting continuing education events throughout the country to help orthodontists of all levels elevate their skill sets via intensive seminars. This September through December, Ormco has a full calendar of more than 14 courses available in North America for orthodontists to engage with industry experts and learn more about passive self-ligation, Insignia Advanced Smile Design™, molar-to-molar therapy, and more.

“Educational events are a cornerstone of Ormco’s services. We’re proud to offer orthodontists access to world-renowned experts to help improve patient care and enhance the practice environment,” said Patrik Eriksson, president of Ormco. “For our upcoming events, we’re lucky to have the industry’s most innovative thought leaders onboard, and encourage orthodontists eager to grow in their practice to take advantage of these opportunities.”

For orthodontists who have completed a PSL Fundamentals I course, or are actively using passive self-ligation, there are five upcoming PSL Fundamentals Level II courses. These seminars focus on advanced treatment mechanics and treatment planning with added considerations for periodontal issues, Class II and Class III cases, extraction cases, and more. For those looking to better understand the merits of digital smile design and customized appliances that can dramatically improve case management efficiency and treatment outcomes, there are two upcoming Insignia Essentials seminars.

For a truly unique and hands-on experience, multiple in-office courses are being held covering everything from molar-to-molar therapy to passive self-ligation in a clinical setting.

The fall/winter education event schedule is as follows:
